

The Fourth International Congress for

Radio Astronomy Research

Hosted by the European Radio Astronomy Club

At The

University of Applied Science (FH) Heidelberg

In the Great Lecture hall of the “Science Tower”

Ludwig Guttman Strasse Wieblingen

Heidelberg Germany

8th, 9th and 10th of September 2006

We are proud to Announce the Forth International Congress for Radio Astronomy, an event held once every 3 years to let Scientists from all over the world present their work and discuss and plan Research programs in the Field of Radio Astronomy. This year we are most honoured to be holding this event at The University of Applied Science (FH) Heidelberg where I am also proud to be a Lecturer in the Field of Electronics. This Event is open to anyone who Registers prior to coming who is not a Student in Heidelberg at the web address

<http://www.eraonet.org/congress/index.htm>

This Event is also Open to any Student or fellow Lecturer in Heidelberg who may wish to attend, as we see our International Lectures as also an Educational event. As a thank you also to the FH for allowing us to use their facilities you are cordially invited to attend. It is requested however so that we may plan the logistics that you fill out a Registration form at the above address, please state after your name “Student or fellow lecturer from Heidelberg” No Registration fee is required in this case. Some Special Lectures for Students will also be held by ERAC Members attending.
